

## Finger sizing tool

### Using the sizing tool

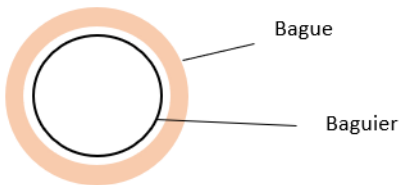

Make sure that the paper is set to "none" in the dialog window before printing this sizing tool.

Check that the tool is 10 cm long on your sheet.

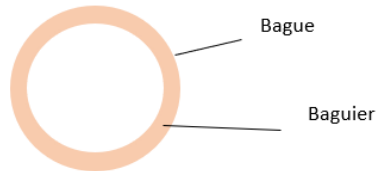

Take a ring that you can put on the finger on which you will wear your new ring.

Put this ring on the different circles below that determine the size of your finger.

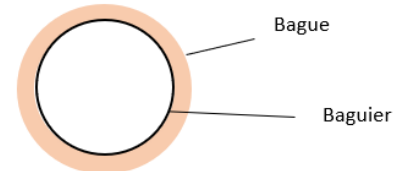

When the inside diameter of your ring coincides exactly with the inside diameter of a circle, you have found the size that suits you.

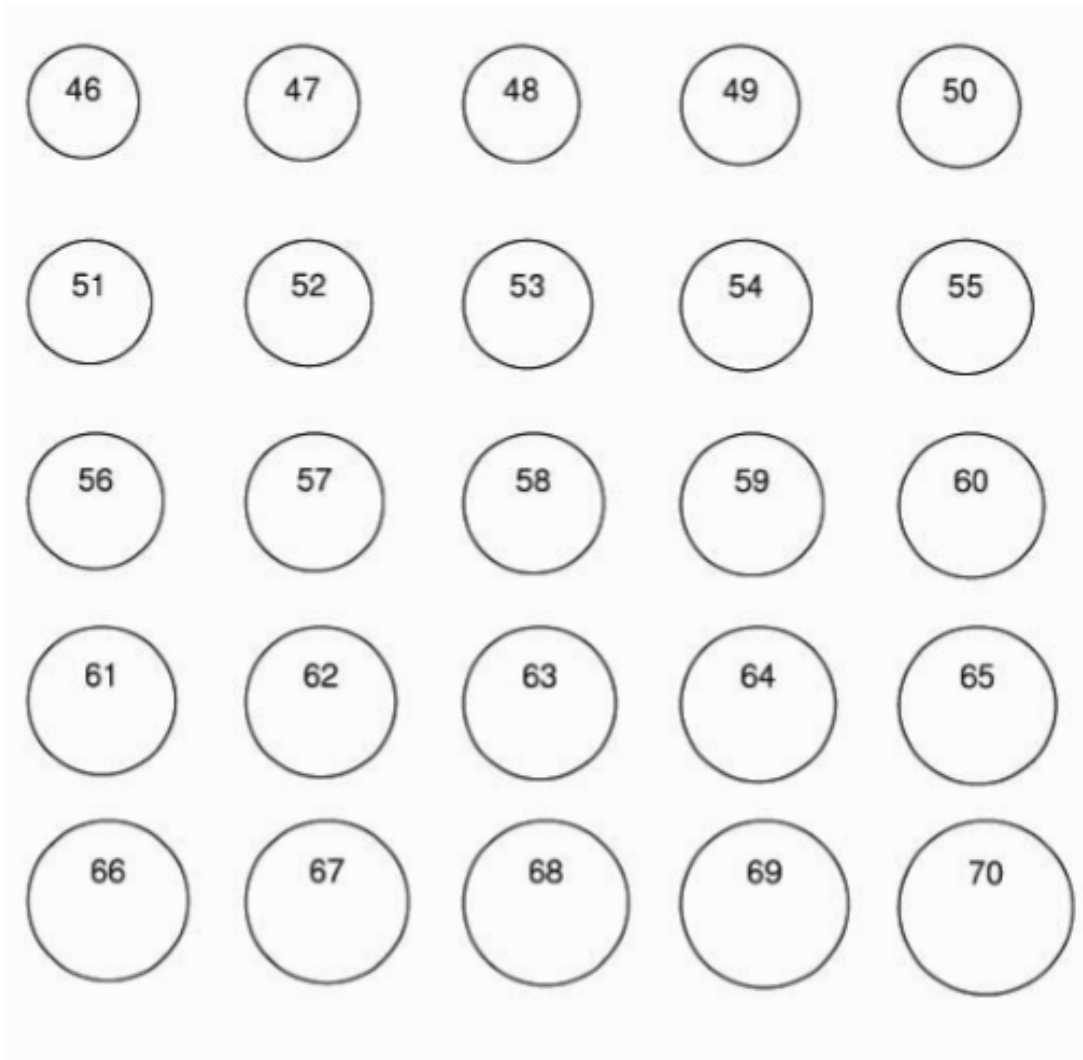

When the baguier is smaller than your ring. You have to look for a bigger size.

When you cannot see the baguier then you must look for a smaller size.

The baguier perfectly matches the diameter of your ring. You found your size.

Size	Diameter (in cm)	Cirumference (in cm)
42	1,33	4,18
44	1,40	4,40
46	1,46	4,58
48	1,53	4,80
50	1,60	5,02
52	1,65	5,18
54	1,72	5,40
56	1,78	5,59
58	1,85	5,81
60	1,98	6,22
62	1,98	6,22
64	2,04	6,41
66	2,10	6,59
68	2,15	6,75
70	2,22	6,97
